1,000 resources and growing

1,000 resources have already been added to EntreOasis: Tools, Templates, Best Practices, Lesson Plans, Case Studies, Videos, Simulations, Education Standards, and more.

We expect thousands more to be added soon because anyone can add a resource, from anywhere in the world, and in any language.

Super fast and convenient

Not just fast. Super fast. Find exactly what you need without time-consuming Internet searches and frustrating dead-ends. Everything is organized (by humans, including you) under 100+ business topics, and presented in logical and well-organized groupings.

Why is EntreOasis needed?

There are many motivated people, high quality resources, and effective programs around the world focused on supporting entrepreneurship. But, finding the right people, resources, and programs to meet specific objectives is far too difficult. The industry is highly fragmented, many people work in isolation, and Internet searches return too many unqualified results.

And, while there are many good entrepreneurship websites, **there is no single destination** that offers both broad and deep coverage of all aspects of entrepreneurship. Coverage that can satisfy the varied and changing needs of youth, adults, students, instructors, facilitators, parents, community leaders, economic development professionals, publishers, service providers, and entrepreneurs.

The result is that good quality resources and programs go underutilized, and much focus, energy, and money is lost to frustrating searches and duplication of efforts. The entrepreneurial spark is often extinguished before it can even flame.
